Quality & Service

## A NEW, SUPERIOR PRODUCT

Our doors look fantastic, and they resist moisture, heat, and warping. Choose from a variety of styles, colors and accessories. You can set yourself apart from your competition by offering product that's better looking and more durable than thermofoil doors.

Cinch provides only high-quality parts and accessories to finish the job.

### Product Features

- Color and texture are perfectly matched on front and back, at no extra charge.
- A full  $\frac{3}{4}$ " thick.
- Heat resistant. Won't delaminate in transit or in use near an oven or dishwasher.
- Warp resistant. DuraLuxe doors resist warping because they are perfectly balanced with the same materials on the face and the back.
- Made in the USA.

## GREAT PRICING

Cinch has the lowest prices anywhere for shaker-style doors. Our Shaker prices are competitive with other suppliers' slab doors.

We offer many services free of charge.

- No higher prices for small order quantities. You don't get penalized when you just need one unit or a few parts.
- Free hinge holes.
- No minimum part size.
- Free packaging by unit, which saves you costly labor to sort out doors.
- Free cartons and pallets.

### Cinch - DuraLuxe Door

**No Failure Point**

Our DuraLuxe doors are superior products designed to eliminate failure points.

### Standard Thermofoil Door

**Frequent Failure Point**

## CONSISTENT QUALITY & COMPLETE ORDERS

Cinch's automated process eliminates many potential causes of mistakes. It's difficult for us to make a door the wrong size, put hinge holes in the wrong place, or leave a door off an order.

## SHORT LEAD TIME

We ship the 5th working day after you order. If you order on Wednesday, we ship the next Wednesday. If something happens and you need a few parts, we'll ship them to you the next day, with no surcharge.

## SMALL ORDERS ARE NO PROBLEM

Our production process is efficient for small or large orders. We use that efficiency to take great care of our customers, and you don't get gouged on small orders. Parts orders are the same price as huge orders.

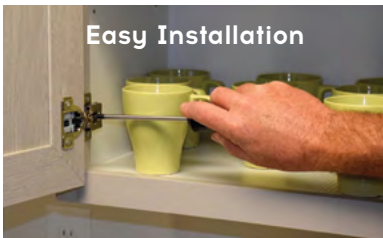

Consistent pricing means you can be certain of your costs when you bid a job. Our pricing doesn't go up when you need to place a small order.

### Quality Parts

Choose from standard, hidden hinges or our top-of-the-line soft-close, hidden hinges with near silent closing action and a lifetime warranty.

### Easy Installation

GIVE US A CALL AND MAKE YOUR NEXT CABINET REFACING A CINCH.

Cinch ships complete kits, individually packaged and clearly marked for easy use.

*"Cinch gets my parts manufactured in less than a week, and the quality has been flawless. My customers love the quick service and look of the installed units. Happy customers are making it easy to grow our business."*

**Andres Marin,**  
President, Prestige Renovation

*"Cinch has a great-looking door that's unlike anything else on the market. My customers love the look and the durability. Their products help me stay #1 with my long-time property management customers, and also land new business."*

**Mike Faust,**  
President, BAC Products

## UNIQUE BENEFITS

Cinch can ship kits directly to your job sites at an affordable cost, saving freight and handling.

We can package your doors and fronts with the exact number of hinges and pulls you need for that apartment. This simplifies your inventory and material handling, and eliminates lost hardware. Our kitted hardware prices are usually very competitive with hinges and pulls purchased by the case.

Simplified pricing allows you to quote jobs on the spot, keeping the conversation going with the customer. You don't lose time and sales momentum waiting on a quote.

## WARRANTY

If any Cinch product fails during normal use within three years of purchase, or a piece of hardware ever fails, we will provide a free replacement.

## ABOUT US

Our founders started Cinch after many years' experience in multifamily cabinetry. Since 1999, they have manufactured cabinets for more than 300,000 new apartments. This wealth of experience is now focused on driving consistent manufacturing quality and excellent customer service for Cinch customers.

*"This is a spectacular improvement. We have a high-end look at an affordable cost, and it only took three days!"*
