Guaranteed

SLASH YOUR COSTS BUYING COMPLETE RENOVATION KITS DIRECT FROM THE MANUFACTURER.

Our all-inclusive kits offer the option to avoid a contractor's expense. Your maintenance staff can easily renovate cabinets, or you can get help from your painter. You'll have great-looking cabinets for less than half the cost of full box replacements.

New technology offers a better-looking and more durable door.

These doors look fantastic, like fine cabinetry, with fashionable colors, Shaker styling, and beautiful wood grain running in realistic directions. But they don't just look good. The construction method offers lasting durability. Our doors never delaminate. They resist moisture, heat, and warping - with minimal maintenance. For the same cost as old, obsolete technology, you can separate yourself from the competition.

Cinch - DuraLuxe Door

No Failure Point

Standard Thermofoil Door

Frequent Failure Point

Product Features

- Color and texture are perfectly matched on front and back, at no extra charge.
- A full $\frac{3}{4}$ " thick.
- Heat resistant. Won't delaminate in transit or in use near an oven or dishwasher.
- Warp resistant. DuraLuxe doors resist warping because they are perfectly balanced with the same materials on the face and the back.
- Made in the USA.

WE MAKE CABINET RENOVATION A CINCH.

With our simple order process, you'll receive a complete kit with everything you need - doors, drawer fronts, pulls, hinges, paint, and screws. We provide tools, fixtures, and instructions that dramatically simplify installation. And each kit comes packaged and labeled for a specific apartment.

Choose from a variety of styles, colors and accessories.

Quick delivery keeps units ready to rent.

We know that helping you keep apartments rented is why we're in business. We ship full kits in 7 business days or less. If for any reason you need a part to finish up a unit, we ship parts orders in one or two days.

cinch

No Minimum Order

Order one unit at a time, or for a whole building. Our manufacturing is fast and efficient with orders of all sizes, and our automation drives consistent quality.

"We have a lot of competition, but when we started using Cinch kits, our occupancy went from 87% to 98% in three months. We filled up even faster than I hoped. And we are still averaging more than \$2,000 monthly rent."

Marta Garcia,
Property Manager,
Miramar Townhomes

"This is a spectacular improvement. We have a high-end look at an affordable cost, and it only took three days!"

Paul Gilford, HAP

FREE DEMONSTRATION UNIT

We want to show new customers how easy it is to get a great result with Cinch Kits. Free kits are available for new customers with approved cabinet renovation budgets. Give us a call to make your renovation a Cinch.

TRIPLE GUARANTEE

Cinch is proud of our products, and we stand behind them.

①

If you're not satisfied with the results of an installed Cinch kit, we'll refund your full purchase price.

②

If any Cinch product fails during normal use within three years of purchase, we will provide a free replacement product.

③

If a hinge or piece of hardware ever fails, we will send you a free replacement.

ABOUT US

The Cinch executive team draws on years of management experience at Leedo Cabinetry, the largest US supplier of installed cabinetry for multifamily construction. Since 1999, they have managed cabinet manufacturing and installation for more than 300,000 new apartments. Cinch brings a boatload of experience in cabinet manufacturing and the multifamily industry to the challenge of cabinet renovation. Responding to years of customer requests, they've developed a simple solution to a longstanding problem.
